F.1 PERIOD OF PERFORMANCE

The period of performance for the work specified in Section C of this contract shall commence on the date of award, and continue through a five-year period with options for renewal of up to five years based upon the discretion of the contracting officer.

F.2 PRINCIPAL PLACE OF PERFORMANCE

The principal place of performance of this contract shall be the Hanford Site, near Richland, Washington and other facilities as directed by the Contracting Officer.

F.3 DELIVERIES

All products, reports, or services under this contract shall be delivered to the Contracting Officer, or any other duly authorized Government representative as designated in writing by the Contracting Officer. The Contractor shall prepare and submit the plans and reports listed in Clause F.5, *Management Products and Controls*, below.

F.4 FAR 52.242-15 STOP-WORK ORDER (AUG 1989) - ALT 1 (APR 1984)

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
1. Cancel the stop-work order; or
 2. Terminate the work covered by the order as provided in the Termination clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule, the estimated cost, the fee, or a combination thereof, and in any other terms of the contract that may be affected, and the contract shall be modified, in writing, accordingly, if-

1. The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 2. The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- (c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

F.5 MANAGEMENT PRODUCTS AND CONTROL

- (a) The Contractor shall provide a reporting system capable of management information in the form of electronic databases and will report program performance and earned value on the technical work, schedule, funds and cost profile.
- (b) The Contractor's databases and reporting shall be available to the U.S. Department of Energy Office of River Protection (DOE-ORP) no later than 10 working days after the close of the reporting period, to be established at time of award.
- (c) The Contractor shall provide the information necessary to support DOE-ORP and other site contractors in the preparation of reports required by regulatory agreements, such as, the *Hanford Federal Facility Agreement and Consent Order* (also known as the Tri-Party Agreement (TPA)) and legislative mandates or DOE Headquarters required specific data (e.g., Integrated Planning and Budgeting System (IPABS)), which must be supported by the reporting system.
- (d) Minimum reporting requirements and the frequency of submission are provided in Table F-1. Table F-1 is not intended to be complete and is subject to change at the discretion of the Contracting Officer as provided to the Contractor in writing. In addition, Table F-1 does not include reports that may be required by other terms of this Contract or by DOE directives that are applicable to this Contract. The Contracting Officer will determine content, format and distribution of all reporting requirements listed in Table F-1.

- (e) Project Management Plan: The Contractor shall prepare a Project Management Plan (PMP) describing the approach for managing and controlling the project. The PMP shall be submitted for DOE approval (Table F-1), and shall include two distinct sections: the description of the Project Control System and the Project Baseline. Content and information requirements for the Project Control System and the Project Baseline are described below. As part of the PMP, the Contractor shall provide a description of the Project Control System. Upon approval of the PMP by the Contracting Officer, the Contractor shall fully implement the Project Control System. The description of the Project Control System shall articulate the management processes and controls utilized to manage and control work, complete Contract requirements, and meet the requirements of ANSI EIA-748, Earned Value Management Systems.
- (f) Provide quarterly assessment report summarizing the total ASPC status and progress for the quarter, including an evaluation of the FY and Contract term EAC. This report is due 30 calendar days after completion of each quarter, commencing December 2001.
- (g) Summary performance status reports are to be submitted. In addition, the Contractor shall make available to ORP performance data at all WBS levels.

F.6 TRANSITION PLAN

The Contractor will submit a Transition Plan detailing all actions needed to accomplish a smooth transition of responsibility for the work under this contract from the predecessor contractors. The transition period shall be 90-days, the first day of which will be the date of contract award. The Plan will include a schedule for transition period activities. The Transition Plan shall be furnished to DOE eleven days after award, and its implementation will be subject to DOE approval.
