

Science Bowl RUNNERS

You will be assigned to work a competition room. In the room you are part of the team that includes a Moderator, Scientific Judge (Co-Moderator), Timekeeper and Scorekeeper.

Your role is very important, and helps things run smoothly throughout the day. Your duties:

1. At the end of each competition round, bring the Official Score Sheet along with the scoring sheets from the easel to Science Bowl Grand Central. Then report back to your assigned room.
2. Help the Co-Moderator to remember to collect the used scratch papers.
3. If something is needed in the room, come to Science Bowl Grand Central and let us know. We have extra easel pads, pencils, scratch paper, markers, etc.

During the actual competition, you may not speak or write anything down. You should only leave the room during the half, or before/after each competition.

If you have any questions, ask the moderator, or during a break, come to Science Bowl Central.

THANK YOU FOR VOLUNTEERING & HAVE FUN!!!
