Permit Number: **1107006880**

Expiration date: **2016-07-22**

Conditions:

1. The waste generator, waste processor and waste collector shall comply with the provisions of R313-26 and the requirements as set forth in R313-19-100.
2. The permit number shall accompany all waste generator, waste processor and waste collector shipments to the land disposal facilities within the state of Utah.
3. Generator Site Access permittees shall be subject to the provisions of Rule R313-14 for violations of federal regulations, state rules or requirements in the current land disposal facility operating license regarding radioactive waste packaging, transportation, labeling, notification, classification, marking, manifesting or description.
4. Generator Site Access permittees shall grant the State of Utah Division of Waste Management and Radiation Control Director or designee, reasonable access to their facility to conduct a point-of-origin evaluation and verification of the waste collector's, waste generator's or waste processor's waste packaging, classification and waste management activities. Failure to allow the Utah Division of Waste Management and Radiation Control Director or designee access to perform the evaluation may result in a revocation of the permit.
