**SECTION F**

**DELIVERIES OR PERFORMANCE**

**F.1 CLAUSES INCORPORATED BY REFERENCE**

FAR 52.242-15 Stop Work Order (AUG 1989) – CLIN 0003  
FAR 52.242-15 Stop Work Order (AUG 1989) – Alternate 1 (APR 1984) – CLINs 0001, 0002, and 0004

**F.2 DOE-H-2021 WORK STOPPAGE AND SHUTDOWN AUTHORIZATION (OCT 2014)**

- (a) Imminent Health and Safety Hazard is a given condition or situation which, if not immediately corrected, could result in a serious injury or death, including exposure to radiation and toxic/hazardous chemicals. Imminent Danger in relation to the facility safety envelope is a condition, situation, or proposed activity which, if not terminated, could cause, prevent mitigation of, or seriously increase the risk of (1) nuclear criticality, (2) radiation exposure, (3) fire/explosion, and/or (4) toxic hazardous chemical exposure.
- (b) Work Stoppage. In the event of an Imminent Health and Safety Hazard, identified by facility line management or operators or facility health and safety personnel overseeing facility operations, or other individuals, the individual or group identifying the imminent hazard situation shall immediately take actions to eliminate or mitigate the hazard (i.e., by directing the operator/implementer of the activity or process causing the imminent hazard to stop work, or by initiating emergency response actions or other actions) to protect the health and safety of the workers and the public, and to protect U.S. Department of Energy (DOE) facilities and the environment. In the event an imminent health and safety hazard is identified, the individual or group identifying the hazard should coordinate with an appropriate Contractor official, who will direct the shutdown or other actions, as required. Such mitigating action should subsequently be coordinated with the DOE and Contractor management. The suspension or stop-work order should be promptly confirmed in writing by the Contracting Officer.
- (c) Shutdown. In the event of an imminent danger in relation to the facility safety envelope or a non-Imminent Health and Safety Hazard identified by facility line managers, facility operators, health and safety personnel overseeing facility operations, or other individuals, the individual or group identifying the potential health and safety hazard may recommend facility shutdown in addition to any immediate actions needed to mitigate the situation. However, the recommendation must be coordinated with Contractor management, and the DOE Site Manager. Any written direction to suspend operations shall be issued by the Contracting Officer, pursuant to the Clause entitled, "FAR 52.242-15, Stop-Work Order."

- (d) Facility Representatives. DOE personnel designated as Facility Representatives provide the technical/safety oversight of operations. The Facility Representative has the authority to "stop work," which applies to the shutdown of an entire plant, activity, or job. This stop-work authority will be used for an operation of a facility which is performing work the Facility Representative believes:
- (1) Poses an imminent danger to health and safety of workers or the public if allowed to continue;
  - (2) Could adversely affect the safe operation of, or could cause serious damage to the facility if allowed to continue; or
  - (3) Could result in the release of radiological or chemical hazards to the environment in excess of regulatory limits.
- (e) This clause flows down to all subcontractors at all tiers. Therefore, the Contractor shall insert a clause, modified appropriately to substitute "Contractor Representatives" for "the Contracting Officer" in all subcontracts.

### **F.3 PERIOD OF PERFORMANCE**

- (a) The Contracting Officer will issue a Notice To Proceed (NTP) (which may be concurrent with or follow Contract award). The Contractor shall commence work upon the issuance of the NTP. The Contractor shall not be entitled to allowable costs prior to the date of the NTP.
- (b) The Period of Performance of this Contract includes:
- (1) The Transition Operations Phase is anticipated to be 90 calendar days from the date of the written NTP prior to the period of performance and the Contractor assuming full responsibility for the Performance Work Statement (PWS).
  - (2) The period of performance for the work specified in Section C, PWS, of this Contract is **60 months** from the end of the Transition Operations Phase. The period of performance shall commence on [TBD] and continue through [TBD].

### **F.4 DOE-F-1002 PLACE OF PERFORMANCE-SERVICES (OCT 2014)**

The services specified by this Contract shall be performed at the following locations: Portsmouth, Ohio and Paducah, Kentucky with some management functions performed at an office located in Lexington, Kentucky.

### **F.5 DELIVERABLES**

All products, reports, and deliverables (Section J, Attachment J-8) under this Contract shall be delivered to the Contracting Officer shown in Section G or to the duly authorized representative of the Contracting Officer, as designated in writing by the Contracting Officer.

Deliverables requirements under the Contract shall be submitted to the Government via Electronic format unless requested by the DOE CO or the DOE COR in hard copy form. The file document(s) format shall be Microsoft Office Version 2010 compatible and an unprotected version. The documents may be submitted via email as attachment(s), file size permitting. Else, the deliverables shall be submitted on a CD/DVD.

**NOTE: Attachment J-8 is a listing of deliverables. Any deliverable that is required by any provision/clause of the Contract that is not listed in Attachment J-8 does not relieve the Contractor of the requirement to provide that deliverable.**
