

**Table 1, Revision 5 – Interface Responsibilities for Services Anticipated to be Provided to AMWTP by BEA  
Fiscal Year 2014**

Number	Service	BEA Responsibility	Comments	Cost Estimate for period 10/01/2013 through 09/30/2014
BEA-AMWTP-1	138 kV electric power	Provide 138 kV three phase electrical power to AMWTP. Maintain the supply system to the AMWTP interface points.  Provide Power Management electrician support for 138 k V outage support for maintenance on AMWTP electrical components.	AMWTP interface points are on the line side of the 138 kV disconnect switch DS-805-001 and the line side of 108 kV lightning arrestors.  Statement of Work entitled, "Commercial Power to ITG Project Sites," Revision No. 0, dated 04/11/2012, is incorporated into Table 1.	██████████ (estimate includes both Tasks 1 and 2.)
BEA-AMWTP-2	12.5 kV electric power	Provide 12.5 kV three phase electrical power to AMWTP. Maintain the supply system to the AMWTP interface points.	Table 2 provides the interface points for the 12.5 k V system.  Statement of Work entitled, "Commercial Power to ITG Project Sites," Revision No. 0, dated 04/11/2012, is incorporated into Table 1.	See Task 1
BEA-AMWTP-3	Landfill	Provide refuse containers to AMWTP, and transport these containers between AMWTP and INL landfill and recycle station as appropriate.	Statement of Work entitled, "Landfill and Waste Disposal," Revision No. 0, dated 12/21/2011, is incorporated into Table 1.	██████████
BEA-AMWTP-4	Roads and grounds	Maintenance and snow plowing of roads leading to RWMC, WMF-637 parking lot and RWMC perimeter roads.  After normal working hours supplemental sanding of Van Buren and Adams roads upon request	Shared responsibilities (between RWMC and AMWTP staffs) for the snow plowing of the access roadways from TSA Gate SA-19 to the two egress points for the ILTSF area  AMWTP to pay costs of any special requests for the plowing or sanding of these roads.	No costs projected
BEA-AMWTP-5	Telecommunications, wireless and information technology (IT) support	Provide backbone transport for AMWTP's access to and from QWEST (Public Switched Network) via two T-1 lines.  Provide analog phone lines for a limited number of AMWTP requested analog voice phones and for AMWTP fire alarm system access, INL 777 access, and ENS access. Currently AMWTP uses approximately 42 analog phone lines.  Provide wireless communications infrastructure, site wide communications and alarm, and site wide emergency radio systems.	AMWTP to use own messaging platforms and licenses (servers, switches, and etc.)  AMWTP to pay for EP related radios, pagers, blackberries, cell phones, and facility specific radio equipment  Statement of Work entitled, "Information Technology Support from BEA," Revision No. 0, dated 12/19/2011, is incorporated into Table 1.	██████████
BEA-AMWTP-6	Emergency Response Services	Provide emergency response services to AMWTP.  Provide Emergency Operations Center (EOC) services in support of AMWTP.  Provide emergency medical services, backshift nurse coverage, and provide upon specific request from ITG the drug and alcohol testing of an ITG employee.	Provide emergency response services. This includes providing such services as: structural fire fighting, ambulance emergency medical services, hazardous material incident mitigation, rescue, and wild land fire-fighting, and use of other emergency response and care providers through the existing local mutual aid agreements.  This service does not include the non-emergency medical activities for AMWTP employees such as: physicals, health surveillance, employee assistance program, clinical evaluations for return to work, or a wellness type program.  Provide Emergency Operations Center (EOC) services in support of AMWTP as covered by the Emergency Support Service Agreement between AMWTP and INL.  Statement of Work entitled, "Emergency Management Services," Revision No. 0, dated 12/20/2011, is incorporated into Table 1.	██████████
BEA-AMWTP-7	INL Fire Department	Provide INL Fire Department Services to AMWTP.	Statement of Work entitled, "INL Fire Department Services to ITG," Revision No. 0, dated 12/20/2011, is incorporated into Table 1.	██████████
BEA-AMWTP-8	Occupational Medical Program	Provide Occupation Medical Service to AMWTP.	Statement of Work entitled, "Occupational Medical Program," Revision No. 0, dated 01/02/2012, is incorporated into Table 1.	██████████

**Table 1, Revision 5 – Interface Responsibilities for Services Anticipated to be Provided to AMWTP by BEA  
Fiscal Year 2014**

Number	Service	BEA Responsibility	Comments	Cost Estimate for period 10/01/2013 through 09/30/2014
BEA-AMWTP-9	Security	Provide security services to AMWTP.	No costs are expected for regular day shift Monday through Thursday guard services. Payment for costs for added BEA security at AMWTP during times of elevated security levels or requests for special security services will be negotiated as requests are made. AMWTP pays for the badge stock that has magnetic strip and imbedded chip. AMWTP to pay for INL locksmith services that are arranged through ITG security. Statement of Work entitled, "Security Services," Revision No. 1, dated 01/18/2012, is incorporated into Table 1.	██████████
BEA-AMWTP-10	Task Deleted		Intentionally Left Blank	
BEA-AMWTP-11	TRUPACT trailer tracking support	Provide "over the road" shipment tracking of the TRUPACT trailers by WCC.		No costs projected
BEA-AMWTP-12	Clean soil disposal	Provide the receiving location for the receipt of excess clean soil from AMWTP.	T-12 Pit (located north of RWMC) is the current location set up for the receipt of clean soil from AMWTP. Currently clean soil primarily consists of the over burden and side burden soils in the TSA-RE building (WMF-636). AMWTP is responsible for the transportation of the soil to the T-12 Pit	No costs projected
BEA-AMWTP-13	Radiological instrumentation calibration services	Provide the calibration of the AMWTP radiological instruments. Provide the repair of the AMWTP radiological instruments upon request Coordinate the analysis of Nuclear Accident Dosimeters	Statement of Work entitled, "Nuclear Accident Dosimetry Services," Revision No. 1, dated 01/30/2014, is incorporated into Table 1. Statement of Work entitled, "Maintenance, Repair, and Calibration of Radiation Monitoring Instrumentation," Revision No. 0, dated 01/01/2013, is incorporated into Table 1.	██████████
BEA-AMWTP-14	Electronic newsletter subscriptions via INL Library	Provide electronic distribution to limited number of AMWTP staff of requested newsletters	Annual subscription costs to be charged when renewals are put in place each FY.	No costs projected
BEA-AMWTP-15	CCP and AMWTP maintenance equipment calibration	Provide calibration services on mechanical and electronic instruments for the CCP and ITG personnel that are supporting AMWTP.	The specific equipment needing calibration shall be identified by CCP and ITG personnel.	██████████
BEA-AMWTP-16	Task Deleted		Intentionally Left Blank	
BEA-AMWTP-17	Snow removal from AMWTP vehicle areas at EROB parking lot	Provide for hand removal of the snow from AMWTP vehicle areas at EROB parking lot so that it can be removed by snow plows. This represents an incremental snow plowing cost to BEA	AMWTP had certain areas designated for ITG vehicles in the EROB parking areas	██████████
BEA-AMWTP-18	Physical Security technical support	Provide Physical Security technical support.		No costs projected
BEA-AMWTP-19	Industrial Safety & Industrial Hygiene equipment calibration	Provide calibration services on AMWTP Industrial Safety & Industrial Hygiene instrumentation.	The specific equipment needing calibration are identified in a TBA issued to the INL Standards and Calibration Lab	██████████
BEA-AMWTP-20	Motorized Equipment short term loans and repair of AMWTP vehicles	Provide use of INL equipment through the INL equipment Pool based on equipment availability at the time. Provide repair of AMWTP vehicles (light and heavy vehicles)	The equipment may include sand trucks, man-lifts, dump trucks, snow plows, graders, cranes, and sweepers. ITG to pay INL established equipment loan charges per day. Provide repairs of vehicles and tires at INL Big Shop or provide vehicle repair parts on request.	██████████

**Table 1, Revision 5 – Interface Responsibilities for Services Anticipated to be Provided to AMWTP by BEA  
Fiscal Year 2014**

Number	Service	BEA Responsibility	Comments	Cost Estimate for period 10/01/2013 through 09/30/2014
BEA-AMWTP-21	Miscellaneous short term requests	Provide miscellaneous ad-hoc short-term services to AMWTP (that are not specifically listed above)	<p>These are AMWTP requests typically of low dollar value and short duration (nominally less than \$10K or nominally less than 3 months in duration). Examples are: scientific and engineering technical support, training support, instrument loans, graphics support, and statistical calculations.</p> <p>The agreements for these activities are handled via Task Baseline Agreement e-mails documenting the request with the BEA service provider. The TBA provides the scope, schedule, costs, charge numbers and company technical representative contact information.</p>	<p>██████████</p> <p>To be increased as needed.</p>
BEA-AMWTP-22	External Dosimetry	Provide external dosimetry services to AMWTP personnel and facility.	Statement of Work entitled, "External and Area Monitoring Dosimetry Services," Revision No. 1, dated 01/30/2014, is incorporated into Table 1.	<p>██████████</p> <p>Service to begin on 04/01/2014.</p>
BEA-AMWTP-23	Training Services	Provide miscellaneous training services to AMWTP personnel.	Training services shall be coordinated between the ITG Training Manager or designee and the BEA Training Manager or designee.	██████████
BEA-AMWTP-24	Sentinel Database Management System	Provide maintenance and support of the applicable servers and software applications employed by and within Sentinel.	Statement of Work entitled, "Sentinel Database Management System," Revision No. 0, dated 06/18/2014, is incorporated into Table 1.	██████████
