

Idaho Cleanup Project Spent Nuclear Fuel

Foreign & Domestic Research Reactor Fuel

- U.S. owns research reactor fuel of U.S. origin.
- Idaho site is designated temporary storage location for TRIGA® and Pulstar fuel.
- Idaho site receives 1-5 shipments of FRR/DRR each year. Since 2006:
 - DRR: State University of New York, Texas A&M, University of Wisconsin, Oregon State, Washington State, California TRIGA, Reed College, NRAD
 - FRR: Romania, Mexico, Japan, Austria
- All FRR/DRR placed in interim dry storage at CPP-603.
- Began harvesting lightly used fuel for re-use in 2012.
