<b>FORT ST. VRAIN (FSV) EMERGENCY RESPONSE PLAN (ERP) SECTION 2 SCOPE AND APPLICABILITY</b>	Identifier: PLN-143 Revision: 7 Page: 2 of 2
---	--

## 2. SCOPE AND APPLICABILITY

DOE recognizes a potential exists for an accident to occur at the ISFSI. The ERP defines and classifies the various types of emergencies that may occur.

### 2.1 The Emergency Response Plan

- A. Provides a mechanism to classify emergencies at the ISFSI according to the severity of the situation
- B. Describes the organization and communications that are established to manage the emergency
- C. Outlines course-of-action and corresponding protective measures to mitigate consequences of an accident
- D. Describes the Recovery Organization and general considerations to return the facility to a preemergency condition.

2.2 The ERP implementing procedures, which administer the plan, designate responsibilities and define actions to be taken by preassigned personnel to reduce the consequences of an accident.

2.3 The ERP is applicable to all DOE, contractor, and offsite response personnel, including the INTEC ECC, who have assigned duties at or related to the ISFSI.
