

SRS Paramilitary Security Service Contract
Solicitation No. 89303318REM000015 - Questions and Answers, Posting #3
Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
67.	C.0.2	Uniforms	C-3	Will DOE provide uniform requirements?	The contractor purchases all uniform requirements including but not limited to clothing for all climates; as well as holsters, pouches, body armor, helmets, boots, running shoes, rain suits, slings, backpacks, hydration pouches, snake chaps, goggles, face hoods, pocket tools, knives, and protective and safety gear. Items purchased through a cost type contract become government property.
68.	C.0.4	Transition Plan	C-5	RFP indicates the contractor shall be subject to a DOE S&S initial survey during the transition period and must receive a satisfactory rating, prior to the start of work. Since the incumbent owns the contract until the first effective day of the new contract, and an initial survey is a survey of the facility, can you please describe how the initial survey is to be conducted.	The S&S initial survey will be conducted in accordance with U.S. DOE Order 470.4B, Chg 2 (MinChg), Safeguards and Security Program. The Initial Safeguards and Security Survey shall include but is not limited to the following: Verify that the incoming Protective Force (PF) contractor is prepared to execute the PF mission at SRS in compliance with DOE and federal Safeguards and Security requirements; ensure the incoming contractor employs a formal protocol to review, accept, and/or modify as required the existing PF program; participate in interactions between the incoming contractor's transition teams and the incumbent contractor, including participation in briefings, facility walk downs, interviews, and document reviews; evaluate whether information briefed and exchanged between incumbent and incoming contractor is sufficient to ensure that roles, responsibilities, and accountabilities are clearly communicated and understood; evaluate key lines of inquiry to ensure the incoming contractor understands their roles and responsibilities with regard to providing PF services at SRS based on the following: <ul style="list-style-type: none"> • Process for the review and acceptance/rejection of incumbent company level plans, procedures, policies, and permits. • Key management personnel are knowledgeable of their responsibilities • Lines of authority are clearly communicated • Newly appointed personnel possess the necessary training and/or qualifications • Resources are available to execute security plans • Contractor Assurance Programs are employed in the area of S&S (including self-assessment programs and issues management programs • Facility walk-downs are conducted to ascertain the condition of the buildings, facilities and equipment to be turned over. • Service Level Agreements, Memoranda of Agreement/Understanding and various emergency preparedness/management plans, particularly those with Local Law Enforcement Agencies and with other SRS contractors, are reviewed for acceptance/modification. • Physical inventory of government property is conducted
69.	C.1	Perimeter Protection	Page C-7	Can DOE please provide what the peak populations are during the day shifts and the non-peak populations, for example during the weekends?	There is a population of approximately 12,000 during peak day, and approximately 20% of the peak population during off shifts.
70.	C.1	Perimeter Protection	Page C-7	Can DOE please provide information on the number of vehicle inspections performed at the perimeter barricades during week days and on weekends?	90,390 inspections were performed in 2018. There are no figures for the number of inspections performed at perimeter barricades during weekday and weekend.
71.	C.1	Perimeter Protection	Page C-7	Can DOE please provide information on the number of commercial truck inspections that are performed at the perimeter barricades during week days and on weekends?	This data is not available.
72.	C.1	Protective Force		How many mutual aid calls are performed by SRS security personnel on a monthly/annual basis?	Mutual aid calls are performed by LE Constables only. PF security personnel are not authorized to perform duties off site. Aid calls fluctuate on an as needed basis.
73.	C.1	Protective Force	C-6	How many protective force vehicles are in the fleet and which contractor (M&O or Security) is responsible for	The Master Property List that was added to the Documents Library on the Acquisition Website contains a list of vehicles. GSA vehicles currently have

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
				performing the maintenance on those vehicles, for example, the bearcats?	maintenance performed by security the contractor through a mutual agreement between the security contractor and GSA. All non-GSA vehicle maintenance will be the responsibility of the security contractor.
74.	C.1	Protective Force	C-7	Are all vehicles GSA provided vehicles or are specialty vehicles procured by the protective force contractor?	GSA vehicles are procured through the DOE-SR Fleet Management office. Non-GSA vehicles procured by the contractor become Government Furnished Property.
75.	C.1	Protective Force	C-6	What are the incident command responsibilities of protective force versus the fire department, EMS, and the M&O contractor?	During security events, the ranking PF supervisor or designee assumes incident command responsibilities as the Incident Commander, and the ranking M&O Fire Department officer assumes the role of "Section Chief" (National Incident Management System [NIMS]). For operational emergencies (hazardous material, fires, medical emergencies) the ranking M&O Fire Department officer assumes the role of Incident Commander, and the ranking PF supervisor designee assumes the role of "Section Chief" (NIMS). For wild land fires on the general plant site, the ranking US Forest Service officer assumes the role of Incident Commander. Depending upon the emergency categorization, the senior PF responder and FD responder may form a Unified Incident Command under the provisions of the NIMS Incident Command System (ICS). See DOE O 151.1D Comprehensive Emergency Management System.
76.	C.1	Protective Force	C-6	During the tour and reviewing the RFP there is no mention of manned posts for the F and H tank farm areas. Are we correct in assuming that there are no manned posts associated with these areas?	There are no manned PF posts in F and H tank farms. LE performs random inspections in the areas.
77.	C.1.2	CAS operators	C-9	Section C, Page C-9, Item C.1.2, Are the CAS operators required to be certified by any outside credentialing group?	CAS operators are not required to be certified by any outside credentialing group.
78.	C.1.3	Law Enforcement - River Patrol	C-9	Section C, Page C-9, Item C.1.3 second bullet, Are the river patrol vessels government furnished property or contractor furnished property?	River patrol vessels are considered Government Furnished Property.
79.	C.1.3	Law Enforcement - River Patrol	C-9	Can DOE please provide information on what the maritime assets are?	The maritime assets consist of two (2) twenty foot Jon boats with outboard motors.
80.	C.1.3	Law Enforcement - River Patrol	C-9	How often are the maritime assets used?	This number is not available. LE river patrols are conducted on random basis.
81.	C.1.3	Law Enforcement - River Patrol	C-9	Are the maritime assets US Coast Guard inspected and approved?	No, the maritime assets are not US Coast Guard inspected.
82.	C.1.3	Law Enforcement - River Patrol	C-9	What are the qualifications necessary for the maritime operators?	The operators are required to take a Site Specific Boat Operations Lesson Plan, a Boater Safety Course and required to have a valid state drivers license.
83.	C.1.3	Law Enforcement - River Patrol	C-9	Are the maritime operators currently covered under the Jones Act insurance requirements?	No, maritime operators are not covered under the Jones Act insurance requirements.
84.	C.1.3	Law Enforcement - River Patrol	C-9	How often do the operators interact with the US Coast Guard?	Operators do not interact with the US Coast Guard on a regular basis.
85.	C.1.3	Law Enforcement	C-9	How many SRS law enforcement visits are performed monthly/annually at off-site locations?	This number is not available. Weekly performance of duties by LE fluctuates on a monthly and annual basis. For example, Magistrate Court appearances, transporting violating offenders to county detention centers, requests for canine narcotics/explosive detection, etc.
86.	C.1.3.2	Canine Operations	C-10	Can DOE specify if the Contractor is responsible for providing dog food, medication, grooming/care, vet/medical services etc. services?	The contractor purchases all supplies for canine maintenance including but not limited to dog food, medication, grooming/care, carriers & portable kennels, specialized vet/medical services, leashes, etc. DOE-SR provides routine veterinary care through the DOD (Army Vet) at Fort Gordon.

SRS Paramilitary Security Service Contract
Solicitation No. 89303318REM000015 - Questions and Answers, Posting #3
Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
87.	C.1.3.2	Canine Operations	C-10	Can DOE specify if the contractor is responsible for providing training aids for canine training and certification?	The contractor purchases all training aids and supplies necessary for canine training and certification. Items purchased become government property.
88.	C.1.3.2	Canine Operations	C-10	Section C.1.3.1 states, " The Contractor shall be responsible for canine operations consisting of Certified Class 1 LE Officer Canine handlers." This implies that the canines will be provided by the government. Is our interpretation correct? Will the government provide the PSS contractor with canines? If so, will the canines come already imprinted or will contractors have to imprint the canines?	Current canines are Government Furnished Property and will be assigned to the contractor. Future canine needs will be procured by the contractor and become Government Furnished Property. Current canines are imprinted. Future canines will be imprinted by the vendor prior to procurement. Ongoing training shall be provided by the contractor.
89.	C.1.3.2	Canine Operations	C-10	How many internal operations calls do the canine team(s) respond to on a monthly/annual basis?	There are up to 12 authorized canine teams that conduct inspections daily throughout the site.
90.	C.1.3.2	Canine Operations		Can DOE specify is the Contractor is responsible for providing dog food, medication, grooming/care, medical services etc. services?	See responses to #86, #87 and #88
91.	C.1.3.2	Canine Operations		Can DOE specify if the contractor is responsible for providing training aids for canine training and certification?	See responses to #86, #87 and #88
92.	C.1.3.2	Canine Operations		Can DOE specify who is responsible for providing kennel maintenance and repair?	The M&O performs kennel maintenance and repair
93.	C.1.5.4	Aviation Operations	C-12	Section C, Page C-12, Item C.1.5.4, third paragraph, last sentence states: "The Contractor shall not delegate its responsibility for any 14 CFR Part 135.25 operational control functions and/or its responsibility to maintain operational control over flight activities." Can DOE please define its meaning of "responsibility" Is this statement intended to mean that the offeror can have a subcontractor performing this scope as long as the offeror maintains the responsibility over the scope and the subcontractor?	Aviation Operations (pilots) shall not be subcontracted. DOE will amend H.56 of the RFP to clarify what portions of the scope cannot be subcontracted.
94.	C.1.5.4	Aviation Operations	C-12	Section C, page C-12, Item C.1.5.4, Regarding aviation operations: a. Can DOE please provide the make and model of each aircraft? b. Can DOE please provide the hours of flight for each aircraft? c. Can DOE please provide the historical repair and maintenance costs for each aircraft? d. Can DOE please provide an inventory list of supplies for operations?	The helicopters are both Messerschmitt-Bölkow-Blohm (MBB)/Kawasaki BK 117, twin-engine medium utility – transport helicopters.) MBB was later purchased by Daimler-Benz and eventually became a part of Eurocopter, which was later rebranded as Airbus Helicopters. Each helicopter averages 300 flight hours per year. Additional cost detail for non-labor costs was provided in Attachment L-11. An redacted inventory list of supplies for operations has been included in the Documents Library on the acquisition website.
95.	C.1.5.4	Aviation Operations	C-12	What is the annual amount of aviation duty hours?	See answer to #94. Attachment L-7 provides the annual hours for Pilots.
96.	C.1.5.4	Aviation Operations	C-12	What is the annual amount of aviation maintenance hours?	See answer #91 concerning flight hours. 3 full time FTEs are currently assigned to aviation maintenance.
97.	C.1.5.4	Aviation Operations	C-12	Is there any mutual aid or cooperative agreement with NPP Vogtle that the subcontractor needs to be prepared for?	The current security contractor has no mutual agreements with NPP Vogtle under the SRS Security contract.

SRS Paramilitary Security Service Contract
Solicitation No. 89303318REM000015 - Questions and Answers, Posting #3
Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
98.	C.1.5.4	Aviation Operations	C-12	How often are medical aviation evacuations performed from the site, and are medical personnel always on-board? Are any of the SPOs EMT certified?	Medical aviation evacuations have occurred in the past approximately 6 times a year on average, however this number fluctuates annually. M&O Medical personnel are always on-board during medical evacuations. SPOs are not EMT certified.
99.	C.1.5.4	Aviation Operations	C-12	Is the site part of a protection agreement with NORAD, and if so, how do the aviation assets coordinate with them?	SRS is not part of a protection agreement with NORAD.
100.	C.1.5.4	Aviation Operations	C-12	Regarding question #99 above, who on the Protective Force is responsible for that coordination? And is that a prescribed position?	See answer to #99.
101.	C.1.6	HAZMAT Commercial Driver's License (CDL)	C-13	Section C, Page C-13, Item C.1.6: a. How often is material transported within the site each year? b. How often outside the site? c. How many contractor personnel are required to have a HAZMAT Commercial Driver's License? d. Are these personnel in addition to the two prescribed positions listed in Table L.1., page L-32? If so, which positions listed elsewhere in Table L.1 have this credential?	Nuclear material shipment information is not releasable to the public. There is no minimum requirement for personnel possessing HAZMAT CDLs. In addition to SNM, HAZMAT CDLs are required for transportation of canine training aids
102.	C.1.6	Material Transportation Security and Coordination	C-13	DOE is committed to shipping one metric ton per year of plutonium from SRS to comply with legislative requirements. Is there a requirement for additional protective force transportation coordination/assets to meet these commitments?	No additional protective force transportation assets will be required.
103.	C.1.6	Material Transportation Security and Coordination	C-13	Do the new projects associated with the Tritium Responsive Infrastructure program add to future requirements in this contract?	No, the new projects with the Tritium Responsive Infrastructure program do not add to the future requirements.
104.	C.1.6	Material Transportation Security and Coordination	C-13	The NNSA has announced that the Tritium Extraction Facility will be increasing the number of extractions of Tritium Burning Absorber Rods. What is the planned increase in shipment activity?	The shipment schedule associated with the increased production of tritium is not releasable to the public. See response to #103.
105.	C.1.7.1	Training, Force Requirements	C-14	Section C, Page C-14-15, Item C.1.7.1 (Training) Force Requirements, states: "In addition, the Contractor shall comply with the Nuclear Regulatory Commission security requirements contained in 10 CFR 73, Physical Protection of Plants and Materials to safeguard the Mixed Oxide Fuel Fabrication Facility (MFFF) should that facility become operational." Now that the decision has been made to change the mission of this facility to pit production potentially, has the security posture on this facility changed materially, or will it change during facility reconfiguration, or if the facility becomes operational during this contract cycle, which will affect our technical approach and cost estimates? If so, can DOE please share the changes?	The MFFF is located in a Property Protection Area and regardless of mission state continues to be protected by the security contractor as such. Any new mission resulting in the repurposing of the MFFF may result in a contract modification in the future. Attachment L-8 of the RFP states "It is anticipated that the security posture (Property Protection Area) for the Mixed Fuel Fabrication Facility will remain unchanged during the contract period." Offeror's should use this assumption when preparing their proposals.
106.	C.1.7.1	Training	C-14	Section C, Page 14-15, Item C.1.7.1 (Training), Can DOE confirm that the NRC 10CFR 73 training requirement is	The NRC 10 CFR 73 training requirement is no longer necessary. DOE will amend the RFP to remove the NRC 10 CFR 73 training requirement.

SRS Paramilitary Security Service Contract
Solicitation No. 89303318REM000015 - Questions and Answers, Posting #3
Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
				no longer necessary now that the MOX will not be operational as such?	
107.	C.2.1.3	DOE HRP Program Support	C-18	What is the required census of HRP-qualified personnel that are supported by this contract?	This information cannot be released to the public. For proposal preparation purposes, the offeror shall assume that all PF personnel are HRP qualified. DOE will amend the RFP to include this assumption in attachment L-8.
108.	C.3	Information Resource Management and Cyber Security Services	C-19	In order to determine the staffing and costs for cyber security can the government provide additional information on the protective force legacy and current applications specifically: number of systems, software basis and accreditation level?	There are approximately 600 systems that primarily consist of Microsoft Windows operating systems utilizing standard business applications and database applications. The accreditation level is moderate.
109.	C.3	Technical Surveillance Countermeasures Officer	C-20	Section C, page C-20, Item C.3 last paragraph, Is the Technical Surveillance Countermeasures Officer (TSCMO) only for Information Resource Management and Cyber Security or is the TSCMO required to apply the TSCM to the entire site?	The Security Contractor's TSCMO supports the security contract at all security contractor areas of responsibility.
110.	C.3	Technical Surveillance Countermeasures	C-19, C-20	The PWS specifies that "The Contractor shall provide a properly trained and qualified individual to serve as a Technical Surveillance Countermeasures Officer (TSCMO) and administer a Technical Surveillance Countermeasures (TSCM) program in accordance with applicable DOE requirements." Will DOE please define "properly trained and qualified" as inclusive or exclusive of TSCM technician certification in accordance with DOE 470.6 and completion of the Interagency Training Center (ITC) TSCM Fundamentals Course?	DOE will amend the RFP to clarify Section C.3 qualification requirements for the TSCMO.
111.	C.4.2	Quality Assurance	C-21	Will DOE provide a copy of the incumbent QA Program/Plan?	A copy of the QA Program/Plan will not be provided. Offeror's should consult DOE G 414.1-2B, Chg 2 to develop and implement an effective Quality Assurance Program (QAP) consistent with the Department's quality expectations of the Quality Assurance (QA) Order, DOE Order (O) 414.1D, Quality Assurance, dated 4-25-11, and 10 C.F.R. Part 830 Subpart A, Quality Assurance Requirements, and that supports DOE Policy (P) 450.4A, Integrated Safety Management Policy, dated 4-25-11.
112.	C.4.4	Equipment Maintenance	C-22	Section C, Page C-22, Item C.4.4, Can DOE please provide a current list of all equipment noted in this section, with approximate age and condition of said equipment so that offerors can accurately project staffing required to maintain the equipment?	A redacted version of the Master Property List has been added to the Documents Library on the SRS Security Acquisition Website. The age and condition of these items will not be provided due to security reasons.
113.	C.4.11	Interfaces with Site Users	C-25	Will DOE please provide the Interface Management Plan?	The DOE-SR Interface Management Plan has been added to the Documents Library.
114.	H.37	Government Furnished Property	H-58	Based on Section L-11 Labor Rates, FTEs and Other Cost Information, "Other Costs" tab historical data Contractors are responsible for GSA vehicle lease but section H.37 DOE-H-2055 GOVERNMENT FURNISHED PROPERTY (OCT 2014) (REVISED) is stating that government will provide vehicles. Can DOE specify how many GSA leased vehicles are required to be provided by the contractor?	A redacted version of the Master Property List has been added to the Documents Library on the SRS Security Acquisition Website. DOE leases site vehicles through an agreement with GSA. The vehicles are provided by GSA to DOE and managed by the DOE-SR Fleet Management Office. DOE provides the contractor with the requested GSA leased vehicles as GFP. The contractor pays for their GSA leased vehicles through DOE under the security contract.

115.	H.37	Government Furnished Property	H-58	Based on Section L-11 Labor Rates, FTEs and Other Cost Information, "Other Costs" tab historical data Contractors are responsible for providing Body Armor but section H.37 DOE-H-2055 GOVERNMENT FURNISHED PROPERTY (OCT 2014) (REVISED) is stating that government will provide body armor. Can DOE clarify who is responsible for providing Body Armor?	The contractor purchases all body armor needs including carrier. Items purchased through a cost type contract become government property.
116.	H.37	Government Furnished Property	H-58	Based on Section L-11 Labor Rates, FTEs and Other Cost Information, "Other Costs" tab historical data Contractors are responsible for providing Ammunition but section H.37 DOE-H-2055 GOVERNMENT FURNISHED PROPERTY (OCT 2014) (REVISED) is stating that government will provide ammunition. Can DOE clarify who is responsible for providing ammunition?	The contractor purchases all commercial ammunition. DOE-SR purchases non-commercial military ammunition requirements upon request of the contractor.
117.	H.37	Government Furnished Property	H-58	Can DOE specify who is responsible for providing maintenance and repair materials, replacements parts etc. for servicing government provided equipment?	The contractor purchases all supplies/parts necessary and provides necessary, qualified personnel to maintain all DOE owned equipment assigned, including but not limited to vehicles, weapons, communication equipment, tactical equipment, training equipment, ranges, helicopters, physical fitness equipment (gyms), etc.
118.	H.37	Government Furnished Property	H-58	Can DOE specify how many GSA leased vehicles are required to be provided by the contractor?	See responses to #73, #74 and #114
119.	H.37	Government Furnished Property	H-58	Can DOE clarify who is responsible for providing Body Armor?	See response to #67 and #115
120.	H.37	Government Furnished Property	H-58	Can DOE clarify who is responsible for providing ammunition?	See response to #116
121.	H.37	Government Furnished Property	H-58	Can DOE specify who is responsible for providing maintenance and repair materials, replacements parts etc. for servicing government provided equipment?	See responses to #117 and #129
122.	Attachment J-1	Directives	J-1-6	To what software does DOE apply DOE G 414.1-4A (Guide, 06/17/2005) Quality Assurance Management System Guide for Use with 10 CFR 830 Subpart A, Quality Assurance Requirements, and DOE O 414.1C, Quality Assurance?	DOE G 414.1-4A does not apply to any software currently. DOE will amend the RFP to remove this requirement.
123.	L.21	Page Limitations		The instructions in L.21 define page limitations for L-3, L-5, L-12, and L-13. However, page limitations are not defined for the L.21(c) Newly formed entity and predecessor companies, L.21(e) Contracts information, L.21(i) Sources of past performance information/close at hand information, and L.21.(k) Past Performance Consent Statement. Is it the Government's intent to make these items not page limited? If the answer to question 1 is no, please advise the additional pages we may use for each requirement.	DOE will amend Attachment L-3 and L.21(e)(2) of the RFP to clarify where this information should be located and page limitations. L.21(i) does not have a submittal requirement.
124.	L.21(e)(2)	Past Performance		Section L.21(e)(2) Proposal Preparation Instructions, Volume II - Past Performance (Oct 2015) states, "In addition, the offeror may describe any recognized accomplishments the offeror has received on the reference contract.". Form L-3 does not clearly identify in its	DOE will amend Attachment L-3 of the RFP to include a block to provide this information.

Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
				instructions which block of the form this information should be included. Please clarify where offerors should include this information.	
125.	L.21(e)(2)	Past Performance		Form L-3 does not clearly identify in its instructions which block of the form DOE enforcement actions and/or worker safety and health, nuclear safety, and/or classified information security incidents or notifications posted to the DOE Office of Enterprise Assessments website (https://energy.gov/ea/information-center/enforcement-infocenter) should be included. Please clarify where offerors should include this information.	DOE will amend Attachment L-3 of the RFP to include a block to provide this information.
126.	L.21(e)(2)	Past Performance		Are corrective actions explanations included in the Form L-3 page limitation of 7 pages?	DOE will amend Attachment L-3 and L.21(e)(2) of the RFP to clarify where this information should be located.
127.	L.22(h)(6)	Additional Details for Other Than Direct Labor Costs	L-35	<p>Section L.22 (h)(6), Additional Details for Other than Direct Labor Costs, states, “The offeror shall provide a consolidated schedule(s) of non-labor costs (including materials, equipment, other direct costs, travel, etc.) which contains descriptions, quantities, unit pricing and total pricing using the templates provided in Section L, Attachment L-7 reconciling to the total proposed amounts for each cost element, as included Section L, Attachment L-6.” Amendment 0001 added, “For informational purposes, historical FY 2019 Other than Direct Labor Costs have been provided in Attachment L-11, Labor Rates, FTEs, and Other Cost Info, on the “Other Costs” tab”.</p> <p>The historical information provided in Attachment L-11 is insufficient to provide descriptions, quantities, and unit pricing for travel, equipment, material, and other direct costs for this contract. For example:</p> <ul style="list-style-type: none"> • Travel, “Some Protective Force Training” – we need type of training, number of students, provider of the training and location. • Equipment, “Locksmith Equipment and Supplies” – we need the types and brand of the locks and the quantities of each. • Materials, “Respiratory Protection (Mask Filters)” – we need the type of hazards and annual usage rate for each type of filter required • Other Direct Costs, “Helicopter Parts, Fuel, Supplies and Outside Maintenance” – we need the year and model of the helicopters, their maintenance requirements and histories (e.g., OEM maintenance manuals and schedules and maintenance logs), certification records, and hours flown in order to provide annual estimates. <p>We understand this level of detail cannot be provided for many of the items on the list such as weapons and accessories.</p>	<p>DOE will amend Attachment L-11 of the RFP to include more detail for non-labor costs. The provided non-labor amounts are provided for informational purposes. The Offeror’s technical approach will determine the amounts to be proposed in these areas.</p> <p>Travel: Approximately 90% of all training is conducted at SRS. Number of students traveling to various DOE sites and/or locations across the country when courses are not readily available varies from year to year.</p> <p>Locksmith Equipment and supplies: Refer to DOE O 473.3A, Chg 1 Attachment 3, Section A, pages 308-311. GSA authorized Federal Specification FF-L-2740B, Locks, Combination, Electromechanical. GSA authorized Federal Specification FF-L 2937, Combination Locks, Mechanical. DoD authorized specification MIL-DTL-43607J, Padlock, Key Operated, High Security, Shrouded Shackle Sargent and Greenleaf, Kaba X-10. Security Level 1s, 2s and 3s total approximately 350.</p> <p>Respiratory Masks: Employees currently use the CBRNF12B filter cartridge. The usage rate is as needed for operational response. Mask and operational filter are not used for training. Item stays intact unless real event.</p> <p>Helicopter Parts, Fuel, Supplies and Outside Maintenance: See response to #94. OEM maintenance manuals are not releasable. Aircraft Maintenance Status Sheets are not releasable.</p>

Questions #67 through #144

Comment Number	RFP Section/ Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
				Since this is a cost reimbursable contract, does DOE intend for bidders to use the historical data as a "plug" number or will DOE provide greater detail for the items listed? If a plug number, how should they be allocated in the Excel cost tables?	
128.	L-7a	Consolidated Direct Cost Schedules – Excluding Prescribed Personnel Labor		<p>Section L-6 Cost Proposal Worksheets – Amend 0002 is showing WBS C.2.1 tab but in Section L-7a Consolidated Direct Cost Schedules –Excluding Prescribed Personnel Labor Amendment 0002 the P.W.S C.2.1 is missing from all tabs: Direct Labor, Materials, Equipment, Major Subs, Other Subs, Travel, Relocation, and Other Direct Cost. Considering the directions provided with instruction #1 and #3 in the Additional Instructions tab:</p> <p>1. Each WBS should roll cumulatively to the higher tiered WBS level.</p> <p>3. The Total Values by WBS shall reconcile to the values in the associated cost element line item in the respective Section L, Attachment L-6 Cost Worksheets.</p> <p>Will DOE provide revised Section L-7a Consolidated Direct Cost Schedules –Excluding Prescribed Personnel Labor to include P.W.S C.2.1 in all tabs?</p>	DOE will amend Attachment L-7 of the RFP to include P.W.S C.2.1
129.	L-11	Other Direct Costs	Tab "Other Costs"	L-11 under "Other Direct Costs" identifies "Helicopter Parts, Fuel, Supplies and Outside Maintenance". For costing purposes, can DOE please provide information on what "outside maintenance" consists of that our personnel would not be directly responsible for performing?	<p>The helicopters are Government Furnished Property which is assigned to the contractor. The contractor is responsible for all maintenance performed.</p> <p>Maintenance that has been performed by off-site vendors includes engine overhaul and transmission overhauls, avionics, rotary blade repair.</p>
130.	Acquisition Website	Site Security Plan	Documents Library	<p>Section L, Two different portions of section L require offerors to develop detailed information based upon approved security plans:</p> <p>Section L.1(b) (page L-18) States: Protective Force (PF) Operations. The offeror's proposal shall describe its technical approach to Protective Force Operations in accordance with the contract requirements in the PWS section C.1 – Protective Force. The technical approach shall include detailed information regarding the approach to:</p> <ul style="list-style-type: none"> • Perimeter Protection • Communications, Command and Alarm Centers • Law Enforcement, Canine Operations and Criminal Investigations • Facilities Protection – Protection up to Category I Special Nuclear Material (SNM) • Special Operations – Special Response Team (SRT) and Aviation Operations • Material Transportation Security and Coordination <p>And</p>	The information contained in the RFP is sufficient for offerors to develop their proposal. Site security plans at SRS are classified documents and will not be released.

SRS Paramilitary Security Service Contract
Solicitation No. 89303318REM000015 - Questions and Answers, Posting #3
Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
				<p>L.20(a)(1) (page L.20) “The PF services at the SRS must be performed in accordance with existing approved plans and procedures. The plans and procedures mandate that certain activities be performed in areas of the site by a number of “prescribed” personnel. An Offeror has no flexibility in determining how these services are to be performed or the number of personnel performing these activities.”</p> <p>All offerors do not have access to approved security plans. It is noted that the Hanford Missional Essential Security Contract (which includes protective force operations) solicitation provided access to numerous Hanford security plans including: HNF-55230, Rev. 1 2015 Hanford Site Security Plan, Design Basis Threat Implementation Planning Timeline (no document number), HNF-55230, Rev. 1 -2015 Hanford Site Security Plan. All of these plans are Controlled Unclassified Information (CUI).</p> <p>a. Question – In order to be responsive to the requirements of the solicitation and be sure costs are accurately captured, can the government provide the approved security plans and procedures on which the approved protection strategies are based?</p>	
131.	Acquisition Website	Master Property List	Documents Library	Section C, Page C-5, Item C.0.4, Can DOE provide a list of items considered Contractor property versus Government-owned Real and Personal Property?	A redacted version of the Master Property List has been added to the Documents Library on the SRS Security Acquisition Website.
132.	Q&A Posting #1	Question #9	page 3	Would DOE reconsider the response to Q&A #9 that prohibits sub contracting protective force elements. As a service-disabled veteran-owned small business of which specialty protective force services is our core, this direction limits our participation to provide meaningful work.	Due to the security requirements at SRS, PF personnel and Aviation Operations (pilots) shall not be subcontracted. See response to #90.
133.	Q&A Posting 2 response #63, L-11	Proficiency Payments		Per answer to Question 63” The provided historical labor rates include proficiency payments, physical fitness reimbursements and other payments stipulated by the CBA” but Amended Section L-11 “Other Cost“ tab, row 43 is showing TACTCAL PROFICIENCY amounts included in the Other Direct Cost. Can DOE please confirm that these payments are included in the labor rates provided in Section L-11 Amendment 0002 and should not be separately priced in the Attachment L-7 Other Direct Costs tab?	The provided historical labor rates include the proficiency pay stipulated by the CBAs. DOE will amend Attachment L-11 Other Costs tab of the RFP.
134.	Site Tour	Patrols	N/A	During the tour it was mentioned that random patrols monitor the Savannah River Research Campus (owned by Aiken County). Do PF patrol any other non-federal government facilities?	Yes – Law Enforcement conducts random Patrols of Three Rivers Landfill which is leased to Aiken County but is located within the Savannah River Site (SRS) off U.S. Highway 125. Law Enforcement also conducts random patrols of the Savannah River Ecology Laboratory Conference Center just off U.S. Highway 275. Additionally, Law Enforcement conducts random patrols of that portion of U.S. Highway 125 that runs through the SRS as well as portions of U.S. Highway 278 bordering SRS.

Questions #67 through #144

Comment Number	RFP Section/Sub-section	Subject/Title	Page Number	Industry Comment/Question	DOE Response
135.	Site Tour	Secure Compartmented Information Facilities	N/A	In the past SRS has operated Secure Compartmented Information Facilities (SCIF). Are there any prescribed/non-prescribed positions associated with alarms/response for SCIF(s)?	The PF conduct random security patrols and respond to alarms. The PF respond to resolve the alarm upon alarm activation.
136.	Site Tour	Vehicle Inspections	N/A	During the tour, POV and government vehicle inspection policy and procedures were explained. What are the policy and procedures for commercial vehicles?	Commercial vehicles are inspected by PF and Canine on entry. Commercial vehicles are subject to random inspections on exit.
137.	Site Tour	Site Tour Script	N/A	During the tour, 3 CAS's and a PAC were mentioned. Which areas host a CAS?	That information is not releasable to the public.
138.	Site Tour	Rail Shipments of SNM	Site Tour	During the tour the receipt of spent fuel (special nuclear material) via railcar was discussed. Is there a requirement for protective force coordination and inspection at the port of shipment, port of entry and during transit, cask storage and offload at SRS? And if so, can DOE provide any historic and/or expected rail shipment frequency information?	The contractor is involved in the coordination of spent fuel shipments. The PF perform inspections upon receipt at the site. There are no PF inspection duties required at the port of entry or during transit. The number of rail shipments in not releasable.
139.	Site Tour	Canine Veterinarian Services		Can DOE please confirm that we heard correctly during the site tour that canine veterinarian services are provided by DOD, and the cost for those services are billed directly to DOE, therefore, those costs are not to be factored into "Other Direct Costs"?	See response to #86 above.
140.	Amendment 0002, L.22(f)	Proposed Schedule		Considering Primavera is a government-owned computing infrastructure and access will be provided after award, can DOE clarify if the hard copy and working file of a resource loaded schedule (utilizing the Oracle's Primavera P6 Enterprise Project Portfolio Management© software) specified in section L-22 (f) can it be provided during the transition period?	DOE will amend L.22(f) of the RFP to remove the requirement to use Oracle's Primavera P6 Enterprise Project Portfolio Management Software. The information requested by L.22(f) is to be provided with the offeror's proposal.
141.	Amendment 0002, L-11	Labor Rates & FTEs and Other Cost Information	Attachment L-11	Amend 0002.xlsx Section L-11 tab Rates & FTEs Non-Prescribed column I lists the headcount by support group subcategory. Support Group F lists 20 positions but shows only a headcount of 19 in the 20 listed positions. Is the additional position a person performing more than one function or is the number of 19 people incorrect? If the number is incorrect, which other subgroup is overstated by 1 and does this impact Table L.1 "Prescribed & Non-Prescribed FTEs" in section L?	DOE will amend Attachment L-11 Non-Prescribed Personnel and Table L-1 of the RFP to correct.
142.	Amendment 0002, L-11	Labor Rates & FTEs and Other Cost Information	Attachment L-11	Amend 0002.xlsx tab Rates & FTEs Non-Prescribed column C lists the headcount by title. Column I has a summary by subgroup and column H has the titles but does not provide the current headcount by position or PWS/WBS elements. Not having this information allows the incumbent contractor to have a significant advantage in knowing how each title is broken down into the PWS/WBS Sections listed in Section L Table L.1 "Prescribed & Non-Prescribed FTEs". Can you please provide the breakdown of headcount by title for each	DOE will amend Attachment L-11 of the RFP to include headcount by labor title.

				support group by title listed on tab Rates & FTEs Non-Prescribed?	
143.	Amendment 0002, L-11, L.22(h), Table L-1	Table L-1 "Prescribed" & "Non-Prescribed" FTEs	Attachment L-11 and Page L-32	Amendment 0002 updated L.22(h), Table L-1 to remove C.2 Personnel Security, which included 2 non-prescribed personnel and moved to other PWS elements. Can you please identify on Section L-11 Labor Rates FTEs and Other Cost Information amend002, the change in labor categories and support groups? L-11 Labor Rates FTEs and Other Cost Information amend002 lists Personnel Security Analyst in Support Group D and Personnel Security Officer in Support Group F. Were these positions previously part of C.2 and now that they are removed, should they be removed from Group D and Group F?	DOE will amend Attachment L-11 of the RFP to include more detail and clarification. Attachment L-11 labor positions have not changed; headcounts have been revised for the Non-Prescribed Personnel (Not Subject to CBA). The labor positions were not removed from Group D and Group F.
144.	Amendment 0002, L-11	Labor Rates & FTEs and Other Cost Information	Attachment L-11	Amend 0002 Section L-11 Spreadsheet Labor Rates FTEs and Other Cost Information combined Support Group H and Support Group I. Would DOE provide the rationale behind this revision?	Support Groups H and I were erroneously combined in Amendment 002. DOE will amend Attachment L-11 of the RFP to maintain the groupings with headcount for information.
