L.04 DEAR 952.219-70 DOE MENTOR-Protégé PROGRAM (MAY 2000)

The Department of Energy has established a Mentor-Protégé Program to encourage its prime contractors to assist firms certified under section 8(a) of the Small Business Act by SBA, other small disadvantaged businesses, women-owned small businesses, Historically Black Colleges and Universities and Minority Institutions, other minority institutions of higher learning and small business concerns owned and controlled by service disabled veterans in enhancing their business abilities. If the contract resulting from this solicitation is awarded on a cost-plus-award fee basis, the Contractor's performance as a Mentor may be evaluated as part of the award fee plan. Mentor and Protégé firms will develop and submit "lessons learned" evaluations to DOE at the conclusion of the contract. Any DOE contractor that is interested in becoming a Mentor should refer to the applicable regulations at 48 CFR 919.70 and should contact the Department of Energy's Office of Small and Disadvantaged Business Utilization.

L.05 DEAR 952.233-2 SERVICE OF PROTEST (MAY 2010)

Another copy of a protest filed with the Government Accountability Office shall be furnished to the following address within the time periods described in paragraph (b) of this clause: U.S. Department of Energy, Assistant General Counsel for Procurement and Financial Assistance (GC-61), 1000 Independence Avenue, S.W., Washington, DC 20585, Fax: (202) 586-4546.

L.06 DEAR 952.233-4 NOTICE OF PROTEST FILE AVAILABILITY (MAY 2010)

If a protest of this procurement is filed with the Government Accountability Office (GAO) in accordance with 4 CFR Part 21, any actual or prospective offeror may request the Department of Energy to provide it with reasonable access to the protest file pursuant to 48 CFR 33.104(a)(3)(ii), implementing section 1065 of Public Law 103-355. Such request must be in writing and addressed to the Contracting Officer for this procurement.

(b) Any offeror who submits information or documents to the Department for the purpose of competing in this procurement is hereby notified that information or documents it submits may be included in the protest file that will be available to actual or prospective offerors in accordance with the requirements of 48 CFR 33.104(a)(3)(ii). The Department will be required to make such documents available unless they are exempt from disclosure pursuant to the Freedom of Information Act. Therefore, offerors should mark any documents as to which they would assert that an exemption applies. (See 10 CFR part 1004.)

L.07 DEAR 952.233-5 AGENCY PROTEST REVIEW (SEP 1996)

Protests to the Agency will be decided either at the level of the Head of the Contracting Activity or at the Headquarters level. The Department of Energy's agency protest procedures, set forth in 48 CFR 933.103, elaborate on these options and on the availability of a suspension of a procurement that is protested to the agency. The Department encourages potential protesters to discuss their concerns with the Contracting Officer prior to filing a protest.
L.08 OFFER ACCEPTANCE PERIOD
The minimum offer acceptance period is 180 calendar days after the required date for receipt of proposals.

L.09 FALSE STATEMENTS
Offers and Proposal Information must set forth full, accurate, and complete information as required by this solicitation (including attachments). The penalty for making false statements therein is prescribed in 18 U.S.C. 1001.

Offerors are encouraged to periodically check the acquisition website at www.emcbc.doe.gov/SEB/llwmllwtreatment to ascertain the status of any answers to questions, as hard copies will not be distributed.

L.12 INTENTION TO PROPOSE
In order to enable us to anticipate the number of proposals to be evaluated, as an optional courtesy to DOE, Offerors are requested to submit via email a “Notice of Intent to Propose” to llwmllwtreatmentservices@emcbc.doe.gov within 10 days of proposal due date. The email shall contain known Offeror information such as the name of the Offeror, company division and information on all teaming members, and subcontractors, etc.; and appropriate contact information such as address and telephone number of the company. Failure to provide this advance notification does not preclude an Offeror from submitting an offer under this solicitation.

The Offeror's exceptions to and deviations from the solicitation’s terms and conditions, including but not limited to Federal Acquisition Regulation (FAR), Department of Energy Acquisition Regulation (DEAR), and DOE clauses are not sought and the Government is under no obligation to enter into discussions. If, however, a contract is awarded to this Offeror as a result of—or in connection with—the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. The licenses and permits shall be current, dated, signed and approved. For each type of waste, the Offeror shall clearly specify where in the document (page, section, paragraph) that the specific license/permit is identified and authorized for treatment. Wherever practicable, the Offeror can avoid unnecessary duplication/redundancy, e.g. if all waste proposed to be treated is included in a single license, permit or authorization, the Offeror should simply provide a single copy of the current, dated, signed and approved license, and reference the applicable section in the document where each waste type is identified and authorized for treatment. It is the Offerors responsibility to demonstrate they have the applicable licenses, permits and/or authorizations for the types of waste proposed to receive, treat, and release, including BSFR, Low Activity Waste (LAW) Services, Alternative Disposition Strategies (Recycle/Reuse), and ancillary services if applicable.

### Criterion 2 – Treatment Facility

The Offeror shall provide documentation from the appropriate regulatory authority that verifies that the proposed treatment facility is fully capable and ready to receive, treat, and release the waste types being proposed, including BSFR, Alternative Disposition Strategies (Recycle/Reuse), LAW Services, and ancillary services.

Offerors shall describe in sufficient detail the treatment capacity of the proposed facility and how the waste types being proposed will be treated from the time of receipt at the facility to release. This shall include a description of the Offerors ability to receive, handle and release the waste (e.g., by rail, intermodal or truck) for the types of waste proposed to receive, treat, and release, including BSFR, LAW Services, Alternative Disposition Strategies (Recycle/Reuse), and ancillary services if applicable.
**Criterion 3 – Past Performance**

The Offeror, including any entity comprising the teaming arrangement thereof, as defined by FAR 9.601, and subcontractor(s) that will perform major or critical aspects of the requirement, shall submit past performance information for contracts or projects currently ongoing or completed within the last five (5) years that encompass work similar to the requirements of the PWS. Any work performed for DOE’s Office of Environmental Management will be considered at least Somewhat Relevant.

Provided past performance information shall be submitted as described below:

- The Offeror, including each entity comprising the teaming arrangement, shall submit an Attachment L-1, Past Performance Reference Information Form for three (3) contracts or projects.

- Each of the Offeror’s subcontractors that will perform major or critical aspects of the requirement over the contract period (including option years), shall submit an Attachment L-1, Past Performance Reference Information Form for two (2) contracts or projects.

On Attachment L-1 under item 14, the Offeror, each entity comprising the teaming arrangement, and subcontractors that will perform major or critical aspects of the requirement, shall provide the past performance information for each referenced contract regarding any problems they encountered and the corrective actions that they took to resolve those problems. Instructions for each block are included on the second page of the form.

The Offeror, each entity comprising the teaming arrangement, and subcontractor(s) that will perform major or critical aspects of the requirement, shall forward the Attachment L-2, Past Performance Letter and Questionnaire, to the appropriate point of contact for each contract or project cited on Attachment L-1 not performed for the DOE Office of Environmental Management (EM) and for which no contractor performance data is available in the Past Performance Information Retrieval System (PPIRS) system. The point of contact for each contract or project shall complete and forward the questionnaire directly to the Contract Specialist, identified in the Sample Past Performance Letter (Attachment L-2 (Part - A)) prior to the closing date of the RFP. The information provided by the point of contact must be sufficient to enable cross-referencing of the questionnaire to the corresponding Attachment L-1, Past Performance Reference Information Form, for the contract or project. The Offeror shall be responsible for following up with the point of contact to ensure that the questionnaire has been completed and returned to the DOE Contract Specialist prior to the closing date of the RFP. The Offeror may contact the Contract Specialist at llwmllwtreatmentservices@emcbc.doe.gov to confirm the receipt of any questionnaires.

DOE may obtain Past Performance information through all available sources, including Federal Government electronic databases (e.g. PPIRS), readily available Government records (including pertinent prime contracts), and sources other than those identified by the Offeror. Additionally, contract references, including those identified by the Offeror on Attachment L-1 and Attachment L-2, and those not identified by the Offeror, but listed in E-government databases, may be contacted for past performance information.
L.28 EXCLUDED OFFERORS

Proposals received from an Offeror who is currently listed on the excluded Government debarred, suspended, and proposed debarment list (www.sam.gov) will not be accepted or evaluated.

B. RATING SCALE AND DEFINITIONS:

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description of Rating</th>
<th>Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exceptional</td>
<td>Performance meets contractual requirements and exceeds many to the Government’s benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.</td>
<td>To justify an Exceptional rating, identify multiple significant events and state how they were of benefit to the Government. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.</td>
</tr>
<tr>
<td>Very Good</td>
<td>Performance meets contractual requirements and exceeds some to the Government’s benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor were effective.</td>
<td>To justify a Very Good rating, identify a significant event and state how it was a benefit to the Government. There should have been no significant weaknesses identified.</td>
</tr>
<tr>
<td>Satisfactory</td>
<td>Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.</td>
<td>To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified.</td>
</tr>
</tbody>
</table>
### Marginal

Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor’s proposed actions appear only marginally effective or were not fully implemented.

To justify Marginal performance, identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the Government. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g., management, quality, safety, or environmental deficiency report or letter).

### Unsatisfactory

Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the contractor’s corrective actions appear or were ineffective.

To justify an Unsatisfactory rating, identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the Government. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g., management, quality, safety, or environmental deficiency reports, or letters).

### C. ASSESSMENT AREAS:

1. **Quality**
   
   Example: How well did the Contractor provide services that met the terms of the contract? How technically accurate were the contractor deliverables? What was the quality level of the contractor deliverables? How well did the Contractor perform the contract services in a safe manner?
