**L.10 DOE-L-2001 PROPOSAL PREPARATION INSTRUCTIONS – GENERAL  
(OCT 2015)**

- (a) Offeror. The term “Offeror,” as used in this Section L, refers to the single entity submitting the proposal. The Offeror may be a single corporation or a “contractor team arrangement” as defined in FAR 9.601(1), for example, a limited liability company, limited liability partnership, joint venture, or similar entity or arrangement. The Offeror may be an existing or newly-formed business entity for the purposes of competing for any contract resulting from this solicitation. If the Offeror is a newly formed entity, it must be legally established on or before the date for submission of proposals. (See Volume I instructions regarding any requirement for a performance guarantee agreement.)
- (b) Availability of the solicitation, amendments, and other documents – electronic media.
- (1) In order to further the Government policy of maximizing electronic commerce and making the acquisition process optimally cost effective, electronic media will be used and will be the sole method for distributing the solicitation, amendments thereto, and other documents to the public. These documents will be posted via the FedConnect website at: <https://www.fedconnect.net> and through the Federal Business Opportunities website at [www.fbo.gov](http://www.fbo.gov). These electronic mediums will constitute the official distribution method for this solicitation. All amendments and any other official communications from DOE regarding this solicitation will be posted through these mediums. Offerors and all other interested parties will need to maintain continual surveillance of the websites to remain abreast of the latest available information (Offerors and other interested parties are encouraged to utilize the website’s “Notifications” feature). No changes to this solicitation will be effective unless the changes are incorporated into the solicitation by an amendment. No other communication, whether oral or in writing, will modify or supersede the terms of the solicitation.
- (2) The solicitation, amendments, reference documents, drawings, specifications, other documents and other communications are also available through the procurement website at [https://www.emcbc.doe.gov/SEB/wipp\\_transportation\\_services/](https://www.emcbc.doe.gov/SEB/wipp_transportation_services/).
- (c) Submission of proposals.

- (2) Offerors must submit proposals electronically through FedConnect by the date and time specified in Standard Form 33, Solicitation, Offer and Award, in Section A of this solicitation and other provisions of Section L. The official proposal shall only be accepted through FedConnect. It is imperative that the Offeror read and understand how to submit its proposal using the FedConnect

web portal. All proposal documents required by this solicitation must be uploaded, submitted and received in their entirety in the FedConnect Responses web portal no later than the date and time specified in Standard Form 33, Solicitation, Offer and Award, in Section A of this solicitation. Failure to submit a response that is received through the FedConnect Responses web portal by the stated time and date may result in the proposal not being considered. By submitting a proposal, the Offeror agrees to comply with all terms and conditions as set forth in this solicitation. DOE does not provide help desk assistance regarding FedConnect, and questions regarding FedConnect shall be addressed directly to FedConnect in accordance with instructions found on its web site. Subcontractor submissions of proprietary information may provide a password protected document file to the prime and share the password with the Contracting Officer. The subcontractor proposal must adhere to the proposal due date/time in the solicitation.

- (3) Electronic submission of a proposal via FedConnect shall be considered the Offeror’s official offer and will be considered binding. CD/DVD versions of the proposal are not required.
- (4) In addition to the electronic submission of the Offeror’s official proposal via FedConnect, the Offeror shall submit the required number of paper (and electronic) copies of each proposal volume as indicated below. (d) Solicitation instructions and proposal information.

- (1) Proposals shall conform to all solicitation requirements and the instructions contained in this Section L. The Government will evaluate proposals on the basis of the information provided in the proposal. The Government will not assume that an Offeror possesses any capability unless set forth in the proposal. This applies even if the Offeror has existing contracts with the Federal government, including the Department of Energy.
- (2) These instructions are not evaluation factors. Evaluation factors are set out in Section M, Evaluation Factors for Award, of this solicitation. However, failure to provide the requested information may make an Offeror ineligible for award or adversely affect the Government's evaluation of an Offeror's proposal. The Government will compare the Offeror's proposal with the terms noted in Section L in order to perform a compliance review. Any Offerors proposal determined non-compliant per the terms noted in Section L may not be evaluated and may not be further considered for award. In addition, a proposal may be eliminated from further consideration before the initial rating if the proposal is so grossly and obviously deficient as to be totally unacceptable on its face. For example, a proposal may be deemed unacceptable if it does not represent a reasonable initial effort to address the essential requirements of the solicitation, or if it clearly demonstrates that the Offeror does not understand the requirements of the solicitation.

(e) Proposal volumes and page limitations.

- (1) The overall proposal shall consist of separate volumes, organized and individually entitled as stated below, with the following page limitations:
  - (i) Volume I, Offer and Other Documents – No page limit.

The following do not count toward the page limitations: table of contents, title pages, glossary, divider tabs, blank pages, and the cross reference matrix. Those pages that exceed the limits set forth above will not be considered in the evaluation; page counting will begin with the first page of each volume and continue up to the page limitation. No material may be incorporated by reference as a means to circumvent the page limitations.
- (3) Except as may be provided elsewhere in the solicitation (including paragraph (f)(2) below), Offerors shall not cross-reference to other volumes of the proposal and shall provide complete information within the appropriate volume. All cost and pricing information shall be submitted and addressed only in Volume III, Cost or Price Proposal, unless otherwise specified.

The cross reference matrix shall be inserted immediately following the table of contents of the corresponding volume of the Offeror's proposal.
- (3) Page size. Page size shall be 8½ x 11 inches for text pages, excluding foldouts. When 8½ x 11 inch pages contain text on both front and back, this is considered two pages. Page size for foldouts shall not exceed 11 x 17 inches; foldouts may be used for large tables, charts, graphs, diagrams, design drawings, or other schematics. Foldout pages shall fold entirely within the volume in which it appears. When 11 x 17 inch pages are used, this is considered two pages; if tables and graphics are on both front and back, this is considered four pages. Tables of Contents, Lists of Figures, dividers, tabs, or similar inserts that do not provide any substantive information are not counted as a page. Use of 11.5 x 17 binders for the Cost Volume is permitted.
- (4) Print type. Text shall be 12 point or larger, single-spaced, using Times New Roman font type. Headers and footers, spreadsheets, charts, tables, diagrams or design drawings, and graphs must be 10 point or larger using Times New Roman font type. Print type used in completing forms attached to this RFP as Microsoft® (MS) Word®, Access®, or Excel® documents shall not be changed from the styles used in the attachments.
- (5) Page margins. Page margins for text pages and foldouts shall be a minimum of one inch at the top, bottom, and each side. Each page shall, within the one inch top or bottom margins, set forth the solicitation number; name of the Offeror; and, as applicable, the legend in accordance with paragraph (e)(2), Restriction on disclosure and use of data, of the provision at FAR 52.215-1, Instructions to Offerors – Competitive Acquisition. This is the only information that can be displayed within the margins. Two columns of text per page and use of boldface type for paragraph headings are acceptable.
- (6) Page numbering. All pages shall be sequentially numbered by volume.
- (7) File format. Files submitted shall be readable and searchable using Microsoft® (MS) Word®, Excel® (Version 2010 or higher) including working formulas and computations, or Adobe portable document format (PDF) (must be in a searchable format, not scanned). The Adobe PDF shall not be password protected or contain other security restraints unless access information is provided.

- (8) Binding and Labeling of Hard Copies. Each volume shall be separately bound in three-ringed loose-leaf binders. Cost proposals may be submitted in three-ringed binders of any size up to 11½ x 17. Staples shall not be used. The outside front cover of each binder shall indicate the Contractor's name, the RFP number, the title of the RFP, and the copy number (i.e., sequentially number the required copies with the original being Copy No. 1). The same identifying data shall be placed on the spine of each binder to facilitate identification and accountability when placed in a vertical position. Pages shall be numbered sequentially by volume and by individual sections within each volume.
- (g) Classified Information. The Offeror shall not provide any classified information in response to this solicitation unless specifically required to do so in other parts of this solicitation.
- (h) Questions.
- (1) Questions regarding this solicitation must be submitted to [WippTransportation@emcbc.doe.gov](mailto:WippTransportation@emcbc.doe.gov) no later than 21 calendar days prior to the proposal due date. If DOE has not acknowledged receipt of submitted questions within three (3) business days, the Offeror may contact the Contracting Officer to confirm receipt of questions. Each question shall clearly specify the solicitation area to which it refers. Responses to questions, as appropriate, will be posted on the procurement website as soon as practicable. DOE will make every effort to have all questions answered at least two weeks before the proposal submission date. The Government will not identify prospective Offerors submitting questions. Offerors must check the procurement website periodically to ascertain the status of answers to questions.
- (2) This solicitation is considered complete and adequately describes the Government's requirements. If an Offeror believes that there is an error in the solicitation, or an omission, the Offeror shall submit a question to [WippTransportation@emcbc.doe.gov](mailto:WippTransportation@emcbc.doe.gov).
- (i) False Statements. Proposals must set forth full, accurate, and complete information as required by this solicitation (including attachments). The penalty for making false statements in proposals is prescribed in 18 U.S.C. 1001.
- (j) Examination of data. By submission of a proposal, the Offeror grants to the Contracting Officer, or an authorized representative of the Contracting Officer, the right to examine, for purposes of verifying the data submitted, those books, records, documents, and other supporting data (regardless of form) which will permit an adequate evaluation of the proposal. This right may be exercised in connection with any reviews deemed necessary by the Contracting Officer prior to award.
- (k) Commitment of Public Funds. The Contracting Officer is the only individual who can legally award a contract and commit the Government to the expenditure of public funds in connection with the proposed acquisition. Any other commitment, either explicit or implied, is invalid.

- (l) Content of resulting contract. Any contract awarded as a result of this solicitation will contain the following sections of the solicitation: Part I – The Schedule; Part II – Contract Clauses; Part III, Section J – List of Documents, Exhibits and Other Attachments; and Part IV, Section K – Representations, Certifications, and Other Statements of Offerors. **Performance Guarantee Agreement**

For value received, and in consideration of, and to induce the United States (the Government) to enter into Contract DE-\_\_\_\_\_ for the \_\_\_\_\_ (Contract) dated \_\_\_\_\_, by and between the Government and \_\_\_\_\_ (contractor), the undersigned, \_\_\_\_\_ (Guarantor), a corporation incorporated in the State of \_\_\_\_\_ with its principal place of business at \_\_\_\_\_ hereby unconditionally guarantees to the Government (a) the full and prompt payment and performance of all obligations, accrued and executory, which contractor presently or hereafter may have to the Government under the contract; and (b) the full and prompt payment and performance by contractor of all obligations and liabilities of contractor to the Government, fixed or contingent, due or to become due, direct or indirect, now existing or hereafter and howsoever arising or incurred under the contract, and (c) Guarantor further agrees to indemnify the Government against any losses the Government may sustain and expenses it may incur as a result of the enforcement or attempted enforcement by the Government of any of its rights and remedies under the contract, in the event of a default by contractor hereunder, and/or as a result of the enforcement or attempted enforcement by the Government of any of its rights against Guarantor hereunder.

Guarantor has read and consents to the signing of the contract. Guarantor further agrees that contractor shall have the full right, without any notice to or consent from Guarantor, to make any and all modifications or amendments to the contract without affecting, impairing, or discharging, in whole or in part, the liability of Guarantor hereunder.

Guarantor hereby expressly waives all defenses which might constitute a legal or equitable discharge of a surety or guarantor, and agrees that this Performance Guarantee Agreement shall be valid and unconditionally binding upon Guarantor regardless of: (i) the reorganization, merger, or consolidation of contractor into or with another entity, corporate or otherwise, or the liquidation or dissolution of contractor, or the sale or other disposition of all or substantially all of the capital stock, business or assets of contractor to any other person or party; or (ii) the institution of any bankruptcy, reorganization, insolvency, debt agreement, or receivership proceedings by or against contractor, or adjudication of contractor as a bankrupt; or (iii) the assertion by the Government against the contractor of any of the Government's rights and remedies provided for under the contract, including any modifications or amendments thereto, or under any other document(s) or instrument(s) executed by contractor, or existing in the Government's favor in law, equity, or bankruptcy.

Guarantor further agrees that its liability under this Performance Guarantee Agreement shall be continuing, absolute, primary, and direct, and that the Government shall not be required to pursue any right or remedy it may have against contractor or other Guarantors under the contract, or any modifications or amendments thereto, or any other document(s) or instrument(s) executed by contractor, or otherwise. Guarantor affirms that the Government shall not be required to first commence any action or obtain any judgment against contractor before enforcing this Performance Guarantee Agreement against Guarantor, and that Guarantor will, upon demand, pay the Government any amount, the payment of which is guaranteed hereunder and the payment of which by contractor is in default under the contract or under any other document(s) or instrument(s) executed by contractor as aforesaid, and that Guarantor

will, upon demand, perform all other obligations of contractor, the performance of which by contractor is guaranteed hereunder.

Guarantor agrees to ensure that it shall cause this Performance Guarantee Agreement to be unconditionally binding upon any successor(s) to its interests regardless of: (i) the reorganization, merger, or consolidation of Guarantor into or with another entity, corporate or otherwise, or the liquidation or dissolution of Guarantor, or the sale or other disposition of all or substantially all of the capital stock, business, or assets of Guarantor to any other person or party; or (ii) the institution of any bankruptcy, reorganization, insolvency, debt agreement, or receivership proceedings by or against Guarantor, or adjudication of Guarantor as a bankrupt.

Guarantor further warrants and represents to the Government that the execution and delivery of this Performance Guarantee Agreement is not in contravention of Guarantor's Articles of Organization, Charter, bylaws, and applicable law; that the execution and delivery of this Performance Guarantee Agreement, and the performance thereof, has been duly authorized by the Guarantor's Board of Directors, Trustees, or any other management board which is required to participate in such decisions; and that the execution, delivery, and performance of this Performance Guarantee Agreement will not result in a breach of, or constitute a default under, any loan agreement, indenture, or contract to which Guarantor is a party or by or under which it is bound.

No express or implied provision, warranty, representation or term of this Performance Guarantee Agreement is intended, or is to be construed, to confer upon any third person(s) any rights or remedies whatsoever, except as expressly provided in this Performance Guarantee Agreement.

**A. RATING SCALE AND DEFINITIONS:**

Rating	Definition	Note
Exceptional	Performance meets contractual requirements and exceeds many to the Client’s benefit. The contractual performance of the element or sub-element being evaluated was accomplished with few minor problems for which corrective actions taken by the contractor were highly effective.	To justify an Exceptional rating, identify multiple significant events and state how they were of benefit to the Client. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant problems identified.
Very Good	Performance meets contractual requirements and exceeds some to the Client’s benefit. The contractual performance of the element or sub-element being evaluated was accomplished with some minor problems for which corrective actions taken by the contractor were effective.	To justify a Very Good rating, identify a significant event and state how it was a benefit to the Client. There should have been no significant problems identified.
Satisfactory	Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.	To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract/order. There should have been NO significant problems identified.  Note: The contractor should not be evaluated with a rating lower than Satisfactory solely for not performing beyond the requirements of the contract/order.
Marginal	Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being evaluated reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor’s proposed actions appear only marginally effective or were not fully implemented.	To justify Marginal performance, identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the Client. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g., management, quality, safety, or environmental deficiency report or letter).
Unsatisfactory	Performance does not meet most contractual requirements and	To justify an Unsatisfactory rating, identify multiple significant events in each category that the contractor

	recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the contractor’s corrective actions appear or were ineffective.	had trouble overcoming and state how it impacted the Client. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g., management, quality, safety, or environmental deficiency reports, or letters).
