

Sample Justification

Laboratory-XYZ has requested that John Doe, born in Iran and a citizen of Netherlands be granted access. Mr. Doe will visit Lab-XYZ to inspect labs that are being built to hold the XYZ Electron Microscopes, which are part of the Project XYZ. The microscope being built for Lab-XYZ will be the highest resolution microscope in the world when they are installed at Lab-XYZ. Mr. Doe is an employee of XYZ Company and is a global expert in the site section and optimization for electron microscopy laboratories. It is necessary for him to inspect the laboratories begin built for the XYZ microscope to certify that the sites are within the necessary limits of acoustic/magnetic/vibration noise to the XYZ microscopes. The installation of the XYZ microscopes are contingent upon Mr. Doe's approval of the site, and he must inspect the site in order to approve it.
