PURPOSE

This MOA outlines the terms and conditions of the temporary short term operational responsibilities transfer of the buildings identified above located at the National Nuclear Security Administration Y-12 National Security Complex Site. SC is currently the responsible program owner of these buildings, as noted in the DOE Facility Information Management System (FIMS), and will remain the owner during the transfer period. The transfer period is defined as the time the buildings listed in this MOA are under the operational responsibilities of EM. Work to be performed by EM includes facility deactivation, characterization, and modification of the Critical Decision 2/3 package. Roles and responsibilities between the parties regarding these buildings are noted below.

ROLES AND RESPONSIBILITIES

EM will:

1. Maintain full operational and environmental, safety, and health responsibility during the transfer period. Example responsibilities include general surveillance and housekeeping associated with EM activities, facility access control, oversight, occurrence reporting, emergency notification and response, disposal of waste materials, and permitting (if required).

2. Work closely with SC to ensure their concerns and expectations are considered for all work performed on these buildings.
3. Conduct the work in accordance with Comprehensive Environmental Response, Compensation, and Liability Act requirements.

SC will:

1. Direct UT Battelle, LLC to provide any existing facility characterization data for the buildings (e.g., radiological surveys, air monitoring data, safety related documents, and inventory data) as requested by EM.
2. Continue to report in FIMS for the listed buildings.

RETURN OF OPERATIONAL RESPONSIBILITIES

Return of operational responsibilities for the buildings will occur after the scope of work has been completed by EM. In the event that work is terminated, the buildings shall be stabilized to a mutually agreed upon condition prior to return to SC.

TERM

This agreement shall remain in effect until amended or terminated by mutual agreement between the parties.

CONFLICT RESOLUTION

Conflict resolution of issues related to this MOA that arise between the parties shall be handled through each party's responsible manager. An effort shall be made by all participants to resolve conflicts with a spirit of cooperation at the working levels of both organizations.

Any modification to this MOA must be in writing and signed by all parties.
